

THIS FIXTURE WEIGHS OVER 100 LBS.

0700 09/26/16

NEC:314.27B, A luminaire that weighs more than 23kg (50lbs.) shall be supported independently of the outlet box unless the outlet box is listed AND MARKED for the MAXIMUM WEIGHT to be supported.

ASSEMBLY INSTRUCTIONS FOR #182230

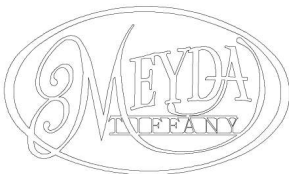

IMPORTANT

TURN OFF THE POWER AT THE MAIN FUSE OR CIRCUIT BREAKER BOX BEFORE STARTING INSTALLATION

CAREFULLY UNPACK AND IDENTIFY ALL PARTS BEFORE ASSEMBLY. BULBS ARE NOT INCLUDED

- 1.) Unscrew the acorn nuts from the panel brace. You may not need to unscrew them all the way. Place the all of the glass panels into their proper position, each one will be labeled to match the corresponding location in which it should be placed. Replace the panel brace and screw the acorn nuts back on snug, DO NOT over tighten. Once panels are in place, if you desire, you may place the cable holds within the metal's edge on top of the horizontal panels. Run the zip tie through them, and zip-tie the wires. (Fig.2)
- 2.) Attach the appropriate amount of chain to the fixture hub using the quick link provided. Run your electrical wire up the length of chain. Place onto the chain; the screw collar followed by the canopy. Attach the other end of chain to the canopy loop using the quick link provided. Your canopy loop should have nipple screwed into it, which is run through the ceiling bracket and secured with a bracket nut. (Main Diagram)
- 3.) Your electrical wire should pass through the canopy loop and bracket. Attach bracket to ceiling and connect electrical wires as per your local electrical code. Run your canopy up to ceiling followed by the screw collar. Screw the screw collar onto the canopy loop, thus making canopy flush with ceiling. (Main Diagram)
- 4.) At this time you should have the canopy attached to the ceiling with chain, hub and two wired arms hanging. You will now attach the other two arms to hub so that the hooks are facing in the same direction as the two wired arms. Now raise shade to the arms, and hook the shade onto the arms. (Main Diagram) Connect all quick plugs. Fig.2) Bulb your fixture, (bulbs provided by others). Power on, enjoy your new fixture!
