

# ASSEMBLY INSTRUCTIONS FOR #182546

## Canopy Detail

## IMPORTANT

TURN OFF THE POWER AT THE MAIN FUSE OR CIRCUIT BREAKER BOX BEFORE STARTING INSTALLATION

CAREFULLY UNPACK AND IDENTIFY ALL PARTS BEFORE ASSEMBLY. BULBS ARE NOT INCLUDED

- 1.) Assemble your ceiling bracket: A nipple through the ceiling bracket, with a bracket nut screwed onto the top of the nipple, (above the bracket). The canopy loop will be screwed onto the nipple. Attach the ceiling bracket to the ceiling. (You may complete step 2 before or after bracket is attached to the ceiling.)
- 2.) Attach the appropriate amount of chain to the fixture loop, using a quick link provided. Place onto the chain the screw collar, and then the canopy. Attach the top of the chain to canopy loop.
- 3.) Run your electrical wires up the length of chain, and through the screw collar, canopy, and then canopy loop/-ceiling bracket. Connect electrical wires as per your local electrical code. Slide canopy up the chain followed by the screw collar. Screw the collar onto the canopy loop, thus making the canopy flush to ceiling.
- 4.) Attach crystal: The ball crystal w/chain will be attached to a half-ball finial, just screw this into the center of the underside of the top band. Attach top crystal chain to top band, do so in the same manner of detail C. Attach the bottom of top crystal chain to the top hole on the middle band. Attach the top of the long chain (bottom) to the bottom hole on middle band. (Detail C) Attach the bottom of the long chain (bottom) to the bottom band. (Detail D) Attach the drop crystals to the bobeche, which will have a hole near the outer edge. (Detail B) Attach drop crystals to the bottom band. Make sure your drop and chain line up correctly with the middle band and top band, as seen in main diagram (center vertical chain). Attach the rest of the drop crystal as seen in Detail A.
- 5.) Bulb your fixture, (bulbs provided by others). Power on, enjoy your new chandelier!
