

INSTALLATION INSTRUCTIONS

FOR ITEM 282365

CAUTION: FAILURE TO INSTALL THIS FIXTURE PROPERLY MAY RESULT IN SERIOUS PERSONAL INJURY OR DEATH AND PROPERTY DAMAGE. We recommend installation by a licensed electrician.

This product must be installed in accordance with applicable installation code(s), by a person familiar with the construction and operation of the product and the hazards involved.*

Caution: Do not exceed maximum wattage noted on fixture. Use only recommended bulbs with fixture.

FIXTURE COMPONENTS

1. RING ASSEMBLY
2. LED DRIVER (QTY: 2)

Caution:

Fixture is OVERWEIGHT and not suitable for installation with standard Junction Box.

Be sure power is off at the main breaker box prior to installation.

Read all instructions in their entirety before beginning installation.

1. Carefully unpack all components and make certain that everything is on hand.
2. Remove the hex nut, split washer and flat washer from the mounting bolts on the ring base, save these for later.
3. Drill holes for wires and mounting bolts into the platform that the rings are being mounted on. Ensure that the platform can support a minimum of 100 lbs.
4. With at least three people carefully lift ring, making sure not to twist the frame.
5. Insert the wires from the base of the rings into the drilled center holes, then place the rings on top of the drilled holes.
6. Using the previously saved hardware secure the rings to the platform.
7. Mount LED drivers in a remote location at a maximum 10' away from the rings.
8. Following all local codes and procedures, make electrical connections from LED driver lead wires to supply wires.
9. Connect ring assembly lead wires to the LED drivers with the molex connectors on the ends of the wires from the ring assembly and the LED drivers.
10. If desired, the rings may be dimmed by connecting dimming wires from the driver to a 0-10V dimming switch
11. Power on and ENJOY!
